Experience

FullStack Developer Intern

01/08/2024 - Present

National Institute of Electronics & Information Technology, Gorakhpur.

- Developed a Project Management System inspired by JIRA, including features like Kanban boards, calendar view, and advanced filtering.
- Conducted offline Web Development courses, educating 50+ students in modern development practices.
- Fixed bugs and enhanced LMS portals to improve user engagement and functionality.

Projects

Jira Clone 08/2024 - 12/2024

- Developed a robust project management system inspired by JIRA, utilizing Next.js 14, Appwrite SDK, and Shaden UI.
- Implemented key features including workspaces, projects/epics, tasks, Kanban board, data table view, and calendar view.
- Integrated advanced functionalities such as analytics dashboards, user roles permissions, OAuth authentication, and file uploads for attachments and avatars.
- Technology Used: Next.Js, TailwindCSS, Appwrite SDK, React.Js

Movix 01/2024 - 02/2024

- Developed a movie and series exploration site using the TMDB API for fetching data. Resolved issues in the explore.jsx file to handle filters effectively across fetchInitialPage() and fetchNextPage() functions."
- Debugged and fixed a critical problem where selecting both genre and sort options reset the filter object, enabling seamless functionality by declaring the filter object globally.
- Technology Used: React.js, TMDB API, JavaScript

Education

PSIT College Of Engineering, Kanpur

12/2020 - 07/2024

B.Tech in Computer Science & Engineering (AI & ML)

6.4 CGPA

Skills

Languages: Java, Python, JavaScript, HTML, CSS

Technologies/Frameworks/Database: React, Nodejs, Express.js, MongoDB, SQL

Tools/Platforms: Git, VS Code

Other Skills: OOPS, DBMS, Team Management, Leadership

Certificates

- Crash Course on Python by Google through Coursera
- Web Development Bootcamp [MERN Stack]
- PSIT TechExpo Consolation Award 2023
